LEADERSHIP COACH AND  
NONPROFIT PRESIDENT

[josiah@compelglobal.org](mailto:josiah@compelglobal.org)

[www.compelglobal.org](http://www.compelglobal.org)

My name is Josiah Harling. I am the Co-founder and President of Compel Global, and a Leadership Coach with the Titanium Consulting Group (TGC). I am a coach with 20 years of coaching experience, a frequently sought after speaker, author, podcast host, husband, and father. Most significantly, my chief identity is as a follower of Jesus, and my faith is deeply integrated into the coaching that I provide.

I received my Masters Degree in Organizational Leadership from Gonzaga University in May of 2012. My studies centered upon transformational leadership, servant leadership, the psychology of leadership, and organizational change. I have also studied psychology, from a family systems perspective. I am also a certified trainer for the C-Me Color Assessment program.

Serving in the non-profit leadership space, I have been extensively involved in leading international humanitarian missions in dozens of countries: working in refugee camps and clinics, anti-trafficking work, peace-making missions, church planting, poverty alleviation strategies, and job creation endeavors. In my consulting work with organizations, I have helped organizations build strategies, policies and programs to increase growth. This has often included implementing new processes and procedures in HR, finance, recruitment, and training solutions across several different CRM platforms.

As a leadership coach, I have helped hundreds of individuals journey through seasons of career transition, by discovering their unique wiring, and identifying perfect-fit opportunities. Coaching has been built on the STRIDE framework curriculum, which helps individuals navigate their unique wiring for global service. In October of 2024, STRIDE will be released as a book and a workbook through Jetlaunch publishing. My goal in coaching is to help people thrive in all aspects of their lives: career/vocation, spiritual, relational, financial.

My passion is helping people live with a deeply formed sense of personal mission and vocation, and helping organizations thrive in their core objectives. As a member of the Titanium Consultant Group, it'd be an honor to serve you.

Sincerely,

Josiah Harling
